After you have logged in for the first time, click on 'My Profile' in the menu on the left. Here you can find your personal information and you can start filling in the correct details.

The screenshot shows the Livanta user interface. On the left is a dark sidebar with a menu containing 'Livanta', 'My Freights', 'Profile' (highlighted), and 'Collapse menu'. The main content area is titled 'Profile' and contains a form with the following sections and fields:

- Name**
 - Username**: Input field with 'wim.kanters'. A note states 'Usernames cannot be changed.'
 - First Name**: Input field with 'Wim'.
 - Last Name**: Input field with 'Kanters'.
 - Nickname (required)**: Input field with 'wim.kanters'.
 - Display name publicly as**: Dropdown menu showing 'Wim Kanters'.
- Contact Info**
 - Email (required)**: Input field with 'freights@livanta.nl'.

Fill in your name and contact details under '*Profile*'. Scroll down and fill in your company name, address, and telephone number. When everything is filled in, click '*Update profile*'.

Go to Livanta in the left corner of the black section and click '*view site*'. You will be redirected to the homepage.

UPDATE

Under the tab *'Add a freight'* you fill in the details of your freight. You start by entering the *'Name freight'*, which can be anything of your choice (e.g. company name). Then you fill in all the details of the load: date, locations (loading and unloading address), type of animal, the required number of floors and fleet type. You can choose several options here. When everything has been entered, click on *'Update'*.

After you have clicked on update, you will receive a confirmation e-mail. The hauliers that are interested will also be notified. When a haulier has shown a specific interest in your freight, you will receive an e-mail notification. When the right match has been made, you can return to the *'interest mail'* and click on the green link to definitively match the freight. It will then disappear from the platform.

Via the tab '*My freights*' the map will show you the loads you have published (orange arrows).

You can also see all the available means of transport. These are indicated by the blue trucks. By clicking on the orange arrow or truck, you will get more detailed information about the relevant load or empty truck, see next page.

Example of an available freight:
